

YALE COLLEGE WREXHAM

PROJECT DESCRIPTION

TACP's involvement in the preparation of the strategic development plan for the enhanced provision for further education services on the site of the former War Memorial Hospital in Wrexham Town Centre, has encompassed masterplanning, building design and landscaping.

The creation of a new campus on this sensitive site addressed a number of issues, including the retention and refurbishment of historic buildings, phased site development, urban design and the creation of a landscape context. We continue to provide on-going services to Yale, including the recently completed Beauty Training Salon.

Job no: 4625
Project Sheet no: 015
