

PROJECT DESCRIPTION

Denbighshire County Council appointed TACP to produce Strategic Development Plans for six Secondary and Sixth Form Schools within the County. These studies analysed and assessed the existing educational facilities, building stock and external facilities. Services provided included detailed assessment of the class room facilities against national guidelines. The master plans produced included development strategies for different scales of development and phasing of works. These approaches ranged from minor works which targeted shortfalls in the facilities, to full redevelopment of the school sites. The project included consultations with school management teams and relevant local authority departments.

Job no: 5816
Project Sheet no: 029

KEY DETAILS

CLIENT: Denbighshire County Council
Location: Various locations in Denbighshire
Sector: Education
Construction Value: Not applicable
