EAGLES MEADOW DEVELOPMENT WREXHAM

PROJECT DESCRIPTION

TACP Architects were members of the FARRHO Developments project team who were initially appointed by Wrexham County Borough Council to develop the edge of the central Eagles Meadow site. The commission was won in competition, and entailed the consideration of development opportunities, primarily leisure, for the site, created by the release of the former Asda building.

The joint venture team explored the possibility of accommodating a John Lewis / Waitrose store, bowling centre, restaurant and decked parking for 800 cars on the site, linked by pedestrian bridge to the town centre.

Job no: 5220
Project Sheet no: 041
