

# HAIR & BEAUTY TRAINING SUITE AND BARBER TRAINING SHOP WREXHAM

## PROJECT DESCRIPTION

Three former classrooms within Yale College have been converted into a new Training Suite for Hair & Beauty students. The suite creates a real salon environment for practical training, and includes ten hair stations, three backwashes, five hair bars, a pedi-station and five multi-use treatment rooms. The barber shop, which is located on an adjacent campus, has two barber stations, a hair station and a back wash.

The refurbished departments have received the prestigious 'Centre of Excellence' status awarded by Wella. The services provided by TACP's in-house interiors team included specialist retail furniture design. The project was constructed within a short six week programme, completed for the new college year in September 2011.
