

PRIVATE SWIMMING POOL BANGOR ON DEE

PROJECT DESCRIPTION

The swimming pool building is oak framed and linked to a private dwelling designed previously by TACP. The pool building includes the main pool area with separate spa pool, and has exposed oak trusses and extensive glazing overlooking the gardens. The building includes changing areas, pool plant room and a workshop linking to a large double garage.

TACP's services included design, obtaining statutory approvals and technical. The building was constructed on a self-build basis with TACP providing on-call support services.
