

PLOTS 2 AND 3, PARC MENAI BANGOR

PROJECT DESCRIPTION

TACP Architects were initially approached by Deepstream Technologies to develop designs for their new Headquarters building, including research and development and also manufacturing facilities for the electronics industry. The building holds a prime site in the sensitive setting of Parc Menai in Bangor.

The project delivery has been transferred to a Welsh Assembly Funding Partnership (WIP), with Carillion Construction acting as Development Contractor. TACP Architects have been appointed by Carillion to provide Architectural and Interior Design for the project. The building will provide 7000m² floor area.

Job no: 5572
